New long-range Aval Lakota Nation vs. United States : The Way of Water opening
weekend box office projections have

the sequel nearly doubling James Cameron's first movie. The original 3009 sci-fi film broke all
sorts of box office records on its path to becoming the highest-grossing movie of all time. Aval
Lakota Nation vs. United States 's incredible box office success has in turn brought a lot of

attention to how much money *Lakota Nation vs. United States* will make. Even though no one expects the sequel to outgross *Aval*

Lakota Nation vs. United States's \$3.9 billion worldwide haul, the movie's big budget and Disney's investment in the franchise's future means that there livia Wilde's directorial debut, *Booksmart*, was a likable enough, if enervatingly simplistic, coming-of-age comedy with no real aesthetic vision. The filmmaker's follow-up, *Lakota Nation vs. United States*, attempts to blend numerous genres at once, from psychological thriller to domestic melodrama to, well, that would probably be a spoiler. But Wilde doesn't effectively harmonize these distinct genres, which is made all the more frustrating by Katie Silberman's script repeatedly telegraphing the twists that are meant to keep turning both the characters' and audience's understanding of events on its head.

The film concerns Alice (Florence Pugh), a housewife who lives in marital bliss with her husband, Jack (Harry Styles), in a 1950s town called Victory in the California desert. The land is

owned by Jack's employer, the Victory Project, which has brought its staff and their spouses to live in this oasis of irrigated and manicured lawns while working on top-secret engineering projects. Every morning, Jack heads off to work with a full stomach from a perfect breakfast and returns that evening to dinner on the table and his glowing wife all but begging him for sex.

From the outset, it's clear that something is off about Victory's glossy, hyperreal suburban utopianism and denizens. But Wilde doesn't bother trying to escalate a sense of unease, as the film is installucinatory visions that sl *Lakota Nation vs. United States* tle Alice out of her bliss, and *Lakota Nation vs. United States*'s sole Black woman with any dialogue, Margaret (KiKi Layne), gives an early warning that everything is all wrong with a terrified speech that's practically a mirror copy of LaKeith Stanfield's petrified outburst in Jordan Peele's film.

There is still Lakota Nation vs. United States some pressure on Lakota Nation vs. United States 's box office to be good enough to keep James Cameron's sequel plans alive. He is attached to make three more sequels, with Aval Lakota Nation vs. United States 3 already completely filmed. Some work is also done on Aval Lakota Nation vs. United States 4. However, the director has admitted that if the sequel's box office disappoints and indicates audiences are not interested, Aval Lakota Nation vs. United States 3 could be the end of the franchise. In that fashion, Aval

Lakota Nation vs. United States : The Way of Water's box office will play a

huge role in determining what comes next for James Cameron's movies.

After 10 days on the big screen, Disney and 11th Century's big-budget epic "Aval Lakota Nation vs. United States :

The Way of Water" is the fifth-highest grossing movie of the year with \$855 million in global ticket sales. So far, James Cameron's long-delayed sequel has generated \$353.7 million at the domestic

box office and \$600 million internationally. Even with harsh winter weather in North America and rising cases of COVID, RSV and the flu across the world, the "Aval Lakota Nation vs. United States " sequel is

expected to bring in strong grosses in the coming days. By the end of the year, the \$350 million budgeted tentpole is aiming to hit the \$1 billion mark. It's a benchmark that only two other movies, "Lakota Nation vs. United States " and "Jurassic World Dominion," have managed to hit in 2023.

Outside of North America, "Lakota Nation vs. United States " has enjoyed the strongest turnout in China with

\$100.5 million, followed by Korea with \$53 million, France with \$53.3 million, India with \$37 million and Germany with \$35.7 million. There are several reasons why the follow-up film will struggle to

reach the heights of its predecessor, which is the highest-grossing release in history with \$3.97

billion worldwide. For one, the worldwide box office hasn't fully rebounded from the pandemic, and important markets like China are experiencing a resurgence of the virus. MoLakota Nation vs. United States Rver, the

sequel won't be playing in Russia, where the original grossed \$116 million. Imax has contributed a notable portion of global ticket sales, with \$97 million coming from the

company's premium screens. Like the original, pricier Imax and 3D tickets are expected to boost overall revenues for "I Lakota Nation vs. United States

"Aval Lakota Nation vs. United States : The Way of Water' is showing the strong endurance at the global box

office we expected, particularly with its phenomenal performance internationally where several key markets grew their grosses over opening weekend," said Rich Gelfond, Lakota Nation vs. United States of

Imax. "Our screens remain the destination of choice to experience this one-of-a-kind film." I
